DEPARTMENT OF ENVIRONMENTAL MANAGEMENT

Mr. Richard L. Kinzie
JADCO, Inc.
P.O. Box 21508
St. Louis, MO 63132

Dear Mr. Kinzie:

Re: Septic Tank Additives
Approval Number A86-1

Bio-Clean marketed by JADCO, Inc., is approved for distribution by permitted Wastewater Management businesses pursuant to Rule 320 IAC 8-3-1.

This approval is based on technical data provided to this office on April 8, 1986. Should that analysis be changed for any reason, this approval is void.

This approval is not an endorsement of said product and only indicates that this office considers it to be safe from an environmental standpoint.

The Department of Environmental Management does not recommend the use of septic tank additives since we know of no independent study which supports the contention that additives are of benefit to a properly operating disposal system.

This approval letter may not be used in part and must be reproduced in its entirety.

Sincerely,

Nancy A. Maloley
Nancy A. Maloley
